

HURRICANE REGISTRY

FOR THOSE WITH FUNCTIONAL, ACCESS, OR MEDICAL NEEDS

IF A HURRICANE WERE COMING, WOULD YOU BE ABLE TO LEAVE?

- Do you have special medical needs?
- Do you need help with everyday tasks like eating and bathing?
- Do you have no one to help you evacuate before a storm?

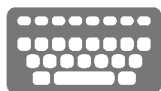

**Then you may need to be on our
Hurricane Registry.**

The health departments in Georgia's coastal counties keep a list of residents with certain healthcare needs who will require help evacuating.

This list is ONLY for people who will need medical care or help with daily activities, and have no other way to leave. But you MUST be on this list in advance, so call or go online **today** to see if you qualify.
